

Online Contract Configuration (eContracts)

Now manage your contracts quickly and proactively for greater peace of mind.

GE Healthcare is driven by “hygiene-centric value proposition” and is working towards innovative service solutions that will minimise contact ensuring that your equipment and you are both protected through its latest ‘online contracts’ feature – contactless renewal of contracts.

Online contracts feature on Service shop portal enables you to renew or create new contracts at the tap of your keypad. What makes this feature truly amazing is that you can keep your equipment covered from anywhere, thus, saving time, attaining higher productivity and ensuring greater peace of mind, knowing that your equipment is always protected from unpredictable times.

Some of the key benefits of using eContracts are:

Complete end to end traceability

Quick turn around time to facilitate new or renew existing contracts

Ease and accessibility

Contactless renewal

Improved productivity
